Report on

“Latest Trends in Artificial Intelligence”

In the context of the rapidly evolving field of Artificial Intelligence (AI) and its increasing applications across various domains, the Internal Quality Assurance Cell (IQAC), Bhoj Reddy Engineering College for Women (BRECW) organized a guest lecture titled “Latest Trends in Artificial Intelligence” on 5 August 2026 for I B.Tech students of CSE, CSM, ECE, EEE and IT departments. The programme was aimed at creating awareness among students about the latest developments, emerging technologies, practical applications, and career opportunities in the field of Artificial Intelligence. The session provided students with valuable insights into the growing role of AI across diverse engineering domains and encouraged them to explore emerging technologies and future career pathways in this rapidly advancing field.

The programme was attended by **K. Tharunkrishna, CEO, TechServ Inventions**, along with the Principal, Vice-Principal, HODs/HOFs, faculty members and all I B.Tech students of Bhoj Reddy Engineering College for Women.

The primary objective of the guest lecture was to:

- Introduce students to the latest trends and developments in Artificial Intelligence.
- Provide an understanding of Generative AI, Machine Learning, Deep Learning, and emerging AI technologies.
- Familiarize students with the real-world applications of AI in various industries.
- Create awareness about the career opportunities and skills required in the AI domain.
- Encourage students to explore AI-based tools and technologies as part of their academic and professional development.
- Help students understand the importance of continuous learning and adapting to rapidly changing technological trends.

Speaker

Mr. K. Tharunkrishna, CEO, TechServ Inventions

Mr. K. Tharunkrishna, CEO of TechServ Inventions, is an industry professional with expertise in emerging technologies and Artificial Intelligence. Through his industry experience and knowledge of current technological developments, he provided valuable insights into the evolving AI landscape and its growing significance in education, industry, and society.

Circular

All First-Year B.Tech students are hereby informed that, as part of the **Student Induction Programme 2026**, a Guest Lecture on “Latest Trends in AI” has been organized. The session aims to provide students with an insight into the latest advancements in Artificial Intelligence, emerging technologies, real-world applications, and the transformative role of AI across various engineering disciplines. It is intended to familiarize students with current industry trends and inspire them to explore the opportunities and future prospects in the field of Artificial Intelligence. The guest lecture will be held on **5 August 2026** as per the schedule. The schedule is as follows:

S.No	Class	Date and Time (Hrs)	Venue
1.	I CSE- A & B and I IT-A & B	05 August 2026 (Wednesday) 01:30 PM –03:00 PM	Indoor Auditorium, Ramdev Block
2.	I ECE- A & B, I CSM and I EEE	05 August 2026 (Wednesday) 03:00 PM –04:30 PM	

All the students must attend the session as per the schedule.

All teaching and non-teaching faculty members who do not have classwork are requested to attend.

Schedule for the Guest Lecture
“Latest Trends in AI”
On 05 August 2026 at Seminar Hall – I (WB 401)

S.No	Time (Hrs)	Speaker
1	13:30–13:35	Welcome note by Indu Hasitha, III B.Tech
2	13:35–15:00	Lecture by the Speaker K. Tharunkrishna
3	15:00–15:15	Break
4	15:15–16:00	Lecture by the Speaker K. Tharunkrishna
5	16:15–16:25	Question session
6	16:25–16:30	Vote of Thanks by T. Laxmiprasanna, III B.Tech

Ms. R. Manju Bhargavi
Head-IQAC

Dr. Shyama Chandra Prasad
Principal

The guest lecture provided students with an opportunity to interact with an industry expert and gain insights into the current trends and future scope of AI. The session focused on bridging the gap between academic learning and industry requirements and encouraged students to develop an interest in emerging technologies.

The major topics covered during the lecture included:- Evolution of Artificial Intelligence, Generative Artificial Intelligence, Machine Learning and Deep Learning, Large Language Models and AI Tools, AI in Various Engineering Domains.

The session was interactive and provided students with an opportunity to clarify their doubts regarding Artificial Intelligence, emerging technologies, learning pathways, and career opportunities. The speaker encouraged students to start learning AI concepts from the early stages of their engineering education and to make effective use of available AI-based learning resources.

The guest lecture successfully created awareness among I B.Tech students about the rapidly changing landscape of Artificial Intelligence. Students gained an understanding of current AI trends and their practical applications in different sectors.
