

Department of Electrical and Electronics engineering

Report on National level technical fest MEDHANVESH -2023 at BVRIT College of Engineering for Women

We are writing this report to provide an overview of our attendance at the technical event held at BVRIT College of Engineering for Women, Hyderabad held on 24-25 February 2023. The activities conducted in technical events were "Code combat", "Sumo Robot", "Smart idea challenge", "Poster Presentation", "Bazinga", "Chat GPTHON", "MAT code", "Aerial Agility", "Cod web", "Ignite Fire "Circuit tricks", "Procreate"..

As we are from EEE chosen the circuitricks and poster presentation.

Circuitricks event was held on 24 February 2023. The event was well-organized, and there were many students from various JNTUH affiliated colleges who participated. The circuitricks event consisted of two rounds. In First round they give a fault circuit and we need to correct it within 30 minutes which was based on all logic gates. And in second round they give a riddle which is to be solved in 20 minutes. This was a more excited one.

Poster presentation was held on 25 February 2023. We are happy to inform that our Team (J Hari Prasanna & S Sireesha) received 3rd prize with a cash award of Rs 1000. Winning a prize is always exciting and gives a sense of achievement. All of us received participation certificates in the valedictory session on the same day at 4:00 PM in BVRIT College

By attending the technical event we got an opportunity to network with other college students and professionals in our field. We met several students from BVRIT college, and it was a great experience. We look forward to attending more events in the future to continue expanding our knowledge and developing our professional network.

We would like to express our sincere thanks to our management for allowing us to attend the technical event. Also special thanks to our principal, HOD and staff of EEE department for encouraging and guiding us to participate in the event.

Thank you for your consideration.
